ANDREWU121@GMAIL.COM

Andres Urbano, Frontend Developer

EXPERIENCE

02

2024.04

Activeone

I learned how to create Chrome Extensions, as well as FlutterFlow to create applications using low code technologies.

I worked with Typescript, React.js, Javascript and FlutterFlow.

2022.04 - 2024.01

Imprimu

My first experience in a bilingual environment. I continue to hone my full-stack skills with NextJs, ReactJs, Angular, Astro.js and NodeJs.

2023.05 - 2024.04

Swiset

My first experience with a fintech startup. The main challenge was to create an prop firm application. I improved my experience with Vue.js and its ecosystem.

2022.01 - 2022.03

Syntax Solutions

My first experience working in an international and team-oriented team. I continued to improve my skills with React.js, Angular and Typescript.

2021.05 - 2021.12

Pragma S.A

My first experience working with a large team. I improved my experience working with Angular, TypeScript and React.js. I strengthened my teamwork skills, learned Git flows and learned all about Scrum methodology.

2019.12 - 2021.04

Monquick

I improved my skills in web application development, as well as the use of best practices. Improved my communication and teamwork skills.

I worked with several technologies, including Vue.js/Vuex/Nuxt.js and React.js/Next.js/Redux. On the back-end side I worked with Node.js, Express.js and Nest.js.
